

Personal Heating Panels

Add summer-like warmth to any small area
with electric heating panels.

Perfect for:

- Reception Rooms
- Cashiers' Desks
- Elevators
- Counters
- Booths
- Offices

Electric radiant heating panels are completely portable. Easily attached to walls or furniture with pressure-sensitive adhesive mounting bracket. No blowers, fans or hot coils . . . just safe, silent, comfortable heat wherever needed. Mount on wall to warm chilly shoulders in drafty or air conditioned offices . . . under desks to keep feet and legs warm. Operates for less than 5¢ per day. No moving parts to wear out. Handsome walnut-like finish. Size 12x20x1". 110 V, 130 watts. Complete with mounting bracket and 6 ft. cord. F.O.B. Illinois, wt. 5 lbs.

Radar Speed-Trap Detector

\$39⁹⁵
Postpaid

Warns of radar traffic zones . . .
promotes safe driving!

Specifications

Just clip the "Radar Sentry" onto your car's sunvisor or set it on your dashboard by means of its magnetic base, and the Sentry will give you an audible "beep beep" warning every time you are about to enter a radar zone! Gives you plenty of time to slow down to legal speed. Helps the conscientious driver maintain legal speeds. If you're in unfamiliar territory, the Sentry prevents your being made a victim of rural speed "traps" where radar controls are used to produce revenue rather than simply to promote safety. This miniature electronic detector has an ingenious dual-band circuit which continuously and simultaneously monitors the only two special microwave frequencies on which radar speed meters and traffic signal controls are authorized to operate.

Completely transistorized, "Radar Sentry" requires no wires or antenna. Of highest quality components, it includes printed wiring, 8 transistors, two 1,000-hour mercury cell, self-testing replaceable batteries (equivalent to 35,000 miles of driving at 35 mph.). Durable magnesium case eliminates radio and other interference. Because its compact size is just $3\frac{5}{8}$ W. x $2\frac{1}{4}$ H. x $3\frac{1}{4}$ D., vision is unobstructed. Complete with batteries, sunvisor clip, magnetic base and full instructions. Beige shipped unless you specify blue or green. **\$39⁹⁵**

SHOPLIFTERS! ATTENTION!

Stopping the needless waste of shoplifting will immediately increase the dealer's profits tremendously. Sentry Convex Reflectors have reduced pilferage in many instances as much as 90%!

OUR GUARANTEE

10-DAY FREE TRIAL, Return for immediate refund if not completely satisfied.

Many merchants from whom you have stolen millions of dollars have now installed these Convex Reflectors which provide 160 degree panoramic vision of store areas previously hidden from view. Beware of these stores! You will now be seen and apprehended!

Shopkeeper: The Sentry Convex Reflector lets you see at a glance everywhere in your establishment! Every blind aisle, every hidden corner covered by a Sentry Reflector is protected by a perpetual guard preventing pilferage. The shoplifter, seeking privacy to secrete the merchandise to be stolen, looks up and sees his image as well as much of the store and does not know who may be watching at that very moment. This unknown has prevented millions of dollars from walking out of stores unpaid for from coast to coast. Also useful at aisle intersections, blind corners, etc. in shops and warehouses to prevent accidents . . . speed traffic flow. The Sentry Reflector has a fused, extruded plastic rim . . . the mirror will never fall out. Shipped F.O.B. Texas.

S-26. Sentry Convex Reflector, 26" diameter. Just **\$29.95**

S-36. Same except 36" diameter (For use when an area over 25' long is to be protected.) Just **\$49.95**

Burn Refuse Safely in an Outdoor REFUSE DISPOSAL UNIT

End refuse hauling and fire hazards!

These fine heavy-duty burners are scientific outdoor incinerators designed for safe, clean and effective disposal of trash. Intense combustion completely consumes all refuse and garbage, damp or dry, in any weather! Specially designed louvers provide scientific draft control . . . eliminates fire hazards and excessive smoke and smell. The units require no watching . . . they can't blow over. Safe for use within 10 ft. of buildings. A screen eliminates burning, flying ash. These incinerators are approved and recommended by fire departments and bureaus of fire prevention. They are of double wall aluminized (molten aluminum bonded to steel) steel construction for extra long life. The units have a base pan and heavy duty grate for most efficient burning. **No installation!** Easy-to-use . . . just lift back hood . . . pour in refuse . . . light from the top with a

match and close hood. No auxiliary fuel is needed. Shipped set-up F.O.B. Ohio.

Pigeon Hole Cabinet

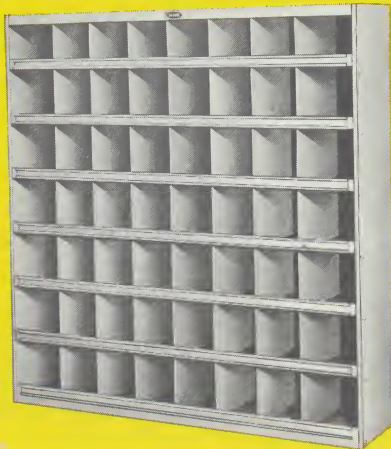

Keep those smaller parts neatly indexed where you can find them! Don't be a victim of "creeping clutteritis"! Label holders provide a method of neatly labeling each bin for speedy "filing" or finding of parts. Save steps . . . spot these sturdy pigeon hole units throughout the shop for ready access.

Specifications

This big steel unit contains 56 compartments, each 4" wide x 5 $\frac{1}{4}$ " high x 8 $\frac{3}{4}$ " deep. The width of the compartments is adjustable on 1" centers to accommodate different size parts. The cabinet is all steel. Its overall size is 34 $\frac{3}{4}$ " wide x 9" deep x 37 $\frac{1}{2}$ " high. This well-engineered, extremely useful pigeon hole cabinet is finished in gray baked enamel. It is shipped K.D. for easy erection.
